Originally drawn in 2008 by Travis Stearns of YouWorkForThem, we revisited the Herzog drawings in 2011 and developed them into a fully functional opentype font release. YWFT Herzog comes with two style options (regular and alternate), with each style containing opentype stylistic alternates for upper case and lower case characters. When you buy the complete family of YWFT Herzog, we include a free copy of the original handset design (eps file), which contains several hundred letter options for your enjoyment.

Designed by Travis Stearns & Taechit Jiropaskosol of YouWorkForThem.
